VOL. V, No. 9

THE VULCAN ADVOCATE, September 26, 1917

PRICE \$1.50 PER YEAR

AUTO CLUB'S FIRST OFFICIAL RUN THURS.

Will Visit Oilfields at Okotoks
All Autoists Are
Invited

The first official run of the Vulcan automobile club will take place on Thursday of this week, when it is planned to visit the oilfields, fifteen mile out of Okotoks. President Spooner is busy making arrangements and it is expected that there will be a large turnout.

The club will leave Vulcan from the Imperial hotel at half past seven in the morning. Those who intend to go are asked to take lunch with them as it is the intention to spend part of the day in picnic fashion. Plenty of hot water and other necessities can be obtained at the end of the journey.

As this is the first official turnout of the club it is requested that there be a good turnout. All members are asked to join and bring those who are not members with them. The distance is about seventy miles. Be sure and have your cars oiled and in readiness the night before.

WILL FIX PRICES

Food controller Hanna stated in a recent interview that prices of wheat, flour, bread and potatoes in Canada would be fixed in a short time, but just when the announcement would be made he could not say.

Information and statistics have been gathered that will result in the prices of these staples being regulated. In some cases the prices cannot be fixed and the public will be informed why this is so.

As regards the price of beef, Mr. Hanna pointed out that this was a difficult thing to regulate. The price of beef in Canada is determined by the price of beef in England.

DECEMBER ELECTIONS.

Impression still prevails in government circles that the general election will not be delayed longer than the month of December. No definite decision will be reached in regard to the dissolution of parliament or the fixing of the date of the election until after Sir Robert Borden returns to the capital early next week, but official opinion still inclines to the view that an effort will be made to have the vote taken before the Christmas holiday season. Owing to the counting of the soldiers vote in England and France the month will elapse before final results are known in all constituencies. This is believed to be what Sir George Foster meant when, speaking at Toronto, he said it would take four, perhaps five months, to prepare for and decide the election.

The work of preparing for the revision of the election lists as provided for by the War-Time Elections Act, will be commenced as soon as Hon. Arthur Meighan, secretary of state, returns to the capital.

The Australian house of representatives has recently passed a bill authorizing a tax on unenlisted men. Police and prison officials and clergymen will not be exempted, while widowers with children may claim exemption.

LOCAL TRIBUNALS BEGIN NEXT MONTH

Word has been received at Calgary from Ottawa to the effect that while the members of local tribunals under the Military Service Act will be appointed at once they will not be expected to begin their sittings until the middle or perhaps the end of October. It appears that there may be some difficulty in organizing medical boards in Alberta because of the scarcity of sufficient qualified officers of the Canadian Army Medical Corps in Military district No. 13.

RED CROSS SHIPMENT

The following is the list of articles comprising the latest shipment of the Vulcan Red Cross Society to the Calgary headquarters.

7 dressing gowns, 28 prs. socks, 11 prs. pyjamas, 21 bed socks, 36 amputation bags, 27 triangular bandages, 12 surgical stockings, 22 hot water bottle covers, 1 shirt, 22 kit bags, 37 slings, 44 pillow slips, 6 binders, 3 nurses aprons, 13 handkerchiefs, total 332 articles.

The raffle for two cushions on September 15th resulted in \$101.05 being raised for the cause. The winners of the two cushions were Messrs. W.N. Ritchie and P. R. Price. The Society are desirous of acknowledging the donation of the cushions, from Mrs. Dorsch Peterson.

LEAVING VULCAN

Vulcan will shortly be the poorer by the going away of Dr. and Mrs. C. H. Nelson, who are leaving early next month for Lethbridge, where they will reside. Dr. Nelson having made arrangements to carry on his dental profession in that city. Dr. Nelson, however, will make a two-day visit to Vulcan every week, and will have his office at Dr. Knowles' surgery in the 'Advocate' building.

During their residence in this town Dr. and Mrs. Nelson have exhibited a keen interest in the advancement of Vulcan. Mrs. Nelson has also done a wonderful amount of work for the Red Cross Society, of which she was president.

GRAIN TURNING OUT WELL

Threshing throughout the district is progressing well, about fifty per cent of the work being done. Another two weeks will see the work practically finished providing that the weather holds good. In the Reid Hill district threshing is reported to be two-thirds done. There are some splendid yields to be reported but as they are not complete we hope to give them at a latter date.

Rain has interfered during the past week to some extent in certain parts, but it has not been general, and while crews were idle in one part the work was progressing in another.

A preliminary statement of the statistics of population and agriculture for the province of Saskatchewan collected at the third census taken of the province since it was constituted in 1905 shows a population in June 1, 1916, of 647,835. Of this number 363,788 were males and 284,048 females. Farm holdings from 1911 to 1916 increased from 96,372 with an acreage of 28,643,985 to 104,006 holdings with an acreage of 36,800,698.

ITEMS OF LOCAL INTEREST:

Mr. W. F. Jennejohn, of the Motor Inn Garage, has recently received a shipment of Hupmobile cars, and Messrs. Stowell and Wolfe have received a shipment of Chevrolet cars.

Mr. A. E. Woodman, of Rossville, York Co., N.B., is visiting Mr. J. M. Dunham.

W. H. Grant was a business visitor to Calgary on Wednesday.

Mrs. Wm. Watt and daughters went to Magrath on Thursday, and expects to stay there some time with her sister.

Mrs. Kent Craig, of Calgary, is visiting Mr. and Mrs. O. A. Craig.

Coming to the Opera House, Margaret Clark in 'Out of the Drifts.'

The telephone inspector paid a visit to the local exchange on Monday.

Messrs. Stowell and Wolfe have for sale a 1917 Ford car, in first class condition, 4 new tyres. Price \$375. See them about any new or second hand car you may need.

Opera House, Tuesday, Charlie Chaplin and 'Patria'. Don't miss this special hand picked program.

Mr. George W. Buck has sold his residence to Mr. J. Nainsmith and Mr. Buck is building a new residence on Apollo street.

Be present at the first run of the Vulcan Auto club to the oilfields on Thursday if you can.

Mr. and Mrs. J. W. Ross, of Waldo, B.C., are visiting Mr. and Mrs. D. C. Jones. They arrived last Wednesday.

Mr. G. W. Hardy, of Calgary, was in town on Saturday.

Mr. and Mrs. J. H. Gordon, of Warner, spent the week end with Mr. and Mrs. M. L. Gordon.

Mr. M. W. Gallaher, of Red Deer, was in town on Monday.

The medical health officer reports nine cases of small pox to date. Of these six cases are at present in isolation. The medical health officer has vaccinated every school-child in the district.

Threshing in the Reid Hill district is about two-thirds done now. It would have been further advanced had it not been for interruptions by the rain. There are some good yields, one of which is that of Mr. Ed. Arney who obtained 29 bushels to the acre from his summer fallow.

ANNUAL RED CROSS MEETING THURSDAY

Will Meet for the Election of Officers and Other Important Business

The annual meeting of the Vulcan branch of the Red Cross Society will be held in the Vulcan Church on Thursday evening of this week, commencing at eight-thirty prompt.

The business to come before the meeting will be the submitting of the annual report of the Society, the election of officers for the ensuing year, and other matters of importance connected with the great war work. During the evening vocal solos will be rendered by Mrs. Symons, of Calgary.

A full attendance, not only of

A very interesting sermon was preached by the Rev. A. R. Schrag on Sunday evening, the subject of which was 'Business, is it Christian?' Owing to the rain there was not a large congregation. The topic for next Sunday evening is 'The Maple Leaf in Flanders'. Everybody welcome.

Opera House, Thursday, Dustin Farnum in 'Ben Blair'.

Mr. Michael Aaron, who has been giving music lessons in town for some time past, has decided to discontinue coming to Vulcan for the winter months.

Fred Bilton had two loads of cattle this week from the Vulcan district, which were sold to Parslow and Denoon, says the Market Examiner.

Miss Annie Smart, of Vulcan, and Miss D. E. Hanken, of Champion, are competitors in the 'Albertan' circulation competition.

Miss B. Graham who has been visiting in the east for several months, returned on Tuesday.

Mr. and Mrs. G. L. Jacques are leaving Vulcan and will reside in Calgary for the winter, at 214 13th Avenue E. Mr. Jacques will still keep in touch with Vulcan and will make periodical visits.

George Wiggs left on Tuesday night for the coast.

Mr. F. J. Mosher, of Calgary, has purchased the General Service garage from Mr. M. D. Kehr.

Over one hundred boxes have been added to the postoffice, and the interior of the building has been altered in order to make the handling of the mail more efficient. This has only been possible since the removal of the telephone to the new building. The hours during which the post-office is open are from 8 a.m. to 7 p.m. for business. The office is open until eight o'clock for box holders.

Miss Eva Leahy is visiting Mrs. Wm. Hill, of Reid Hill.

The names of the two men who will act on the Vulcan Tribunal under the Military Service Act have not been made public.

U.S. secretary of state Lansing has just revealed another German outrage. After the U.S. had taken charge of Germany's affairs in Roumania, Germany 'shamefully abused and exploited' that protection by secreting large quantities of explosives and deadly microbes in the German legation at Bucharest.

PARENT-TEACHER ASSOCIATION MEETS

"THE MAPLE LEAF IN FLANDERS"

If anyone desires to hear a lucid explanation of Canada's cause and part in the great war it will pay him to attend the address of the Rev. A. R. Schrag on 'The Maple Leaf in Flanders' on Sunday night next. This is the third of the minister's series of timely topics.

In view of the conscription measures now under way it is well that everyone should review the why and the wherefore of the British standpoint in the war. There have been great and glorious deeds done by our soldiers, we cannot afford to let them fade from our memory. A number of young men will doubtless be drafted within the next sixty days. Let them think the measure arbitrary and the peril vague let them come to this lecture and refresh their ardour and confirm their loyalty.

A FAREWELL PARTY

A large number of the friends of Mr. and Mrs. R. D. Stowell gathered at the Oddfellows hall on Monday evening for the purpose of giving Mr. R. D. Stowell a send-off before he leaves Vulcan for Toronto to join the Aviation corps.

The Rev. A. R. Schrag, who acted as chairman, made a very fitting speech, calling the attention of his hearers to the fact that Mr. Stowell was one of the many men from this district who would shoulder the duty of active service for the defence and liberty of the principles and rights which we all enjoyed. Although Mr. Stowell was of American birth he had elected to see service under the Canadian flag, and it was this spirit of our Allies to the south of us that displayed the common bond and the common cause between the United States and Canada. Mr. Schrag also dwelt on Mr. Stowell's residence in Vulcan, and the many friends he had made during that stay, and reminded Mr. Stowell that while he was away his friends whom he had left behind would bear him in mind against the time when he would return from the war, and his reception home would be more enthusiastic than his send-off. Mr. Schrag wished him Godspeed on behalf of his many friends in the district.

Mr. Stowell, in a few brief remarks, thanked his friends for the cordial expressions of friendship which had been extended to him.

Short speeches were also made by Dr. Knowles, R. W. Glover and Dr. Nelson.

Mrs. Stowell rendered two vocal solos which were heartily received, and Mr. George Burns contributed two banjo solos. The rest of the evening was passed in dancing. Messrs. T. Shaw and B. J. Kiebe being the musicians. Supper was served.

Mr. Stowell leaves this evening for Toronto. Mrs. Stowell is accompanying him as far as Calgary.

D. E. Richmond will finish his threshing this week, and the average yield will be about 20 bushels to the acre. The quality is good, the wheat grading No. 1.

Will Hold Nomination Meeting on Friday Evening September 28th

The meeting of the Parent-Teacher Association of Vulcan last Friday evening was too poorly attended to permit of the business, that of electing officers and committees, being carried out. It was therefore decided to call another meeting on Friday of this week in the Oddfellows hall, to commence at eight o'clock sharp, when the postponed business will be put through.

As the meeting is one of importance it is hoped that those who are interested in the work of the Association will be present to do all they can towards making it a success. The Association is fully worthy of the attention of every ratepayer in the district as it has a great work before it and is capable of doing much good. Remember Friday evening in the Oddfellows hall at eight o'clock sharp.

DEATH OF MRS. CLIFFORD

The Reid Hill district has once again in a brief time been called upon to mourn the death of an early settler in the person of Isabella Henderson, the wife of Thomas Clifford, who passed away at an early hour on Sunday morning, September 23rd on the farmstead.

Mrs. Clifford was seventy-two years of age, and had been in failing health for two years, but latterly her infirmity took an acute form, and she passed peacefully away, surrounded by husband and children, of whom all four, William, George, Thomas and Geraint, are resident in this district. The family came to the Reid Hill district from Parry Sound, Ontario, about ten years ago.

The Rev. A. R. Schrag conducted the funeral service, which was held in the Vulcan Church on Monday at three o'clock, attended by a large number of friends from the surrounding district. The following neighbours were pallbearers: Messrs. Preffer, Rowe, Deal, Myers, Laws and Warden.

The 'Advocate' joins with the host of friends in extending sincerest sympathy to the bereaved family.

BUFFALO HILLS THRESHING

Threshing is in full swing in the Buffalo Hills districts. Mr. J. M. Tange is almost through and his grain is a fine sample, yielding well. Mr. A. H. Tharlie started yesterday and reports that the grain is turning out to be better than anticipated. The Buffalo Hills district has one of the finest crops in this district, and when threshing is done will show a high percentage.

"SOME" HOG

W. J. McIntyre, of the Lawndale district, is going out of hog raising branch of farming, and he has been advertising his stock for sale. One hog he had, when dressed, weighed 540 pounds and he sold it, receiving in payment a cheque for \$86.40. This is enough to make the mouth of a bacon hog water.

THE PARENT-TEACHER ASSOCIATION

Friday evening's meeting of the Parent-Teacher Association, called for the purpose of electing officers and committees, had to be postponed, as in the opinion of those present, the meeting was not sufficiently representative to proceed with business of such importance. Thus was it borne in on the minds of some that the Association, lacking support at its inception, was doomed to a desultory career and ultimate decay.

The answer to this pessimistic outlook rests entirely with those whose interest ought to be connected with the Association and its objects. They must decide whether this newly born communal institution shall lapse into death with its first breath or whether it will grow into the health and vigour it deserves.

For the enlightenment of such as have not yet made themselves familiar with this new organization let us say that its main motive is to bring into social contact the life of the community on the one hand and the school on the other. There are many bypaths from this main road but fundamentally it is to form a link between the two spheres of our village life, something which will connect us with the life and ways of the school and its teachers and scholars, and to bring us into closer touch with the educational efforts which are being made for the children.

There are dozens of arguments which might be advanced in support of the Association, but the main one is that there devolves upon all of us a certain amount of duty in interesting ourselves in the scholastic welfare of the coming Canada, and it cannot be said that we have fulfilled that duty until we do exhibit an interest in this matter. Our legacy to the children is, or should be, good education just as much as dollars and cents or a quarter section. Certain it is that many of us are not neglecting the latter beneficence; are we fulfilling the former?

If we are not, the Parent-Teacher Association opens up one of the avenues for so doing, if we are, the Association affords stimulating methods of furthering the good work. It should therefore be the duty, not only of parents, but of everyone interested in the Canada of tomorrow to turn out to the meeting in the Oddfellows hall on Friday evening and give a helping hand. Nothing can be lost and much can be gained.

THE KAISER'S REPLY TO THE POPE

In reading the reply of Germany to the Papal note on the peace question one becomes more than ever aware of the duplicity of the august sovereign in whose hands the reason for the present turmoil rests. With one hand he grasps an olive branch on which he gazes lovingly, and ever and anon waves in the direction of the Vatican; in the other he holds a scourge with which he proposes to whip into submission every man, woman and child who does not bow the knee to German autocracy as represented in himself, the Kaiser.

These two sides to his character are not wanting of expansion, they have been apparent since the war began. But it is significant that at the very time when he is making all kinds of gentle unassuming protestations of a desire for peace to the Pope, the Allied governments should be probing into his newly revealed perfidy as set forth in the recent adventures of one Count Luxburg, and the Swedish embassy. And yet it is a mistake to imagine that this dual personality is displayed merely by chance and that now we can say 'At last we have caught you', for it has been displayed ever since our hostile dealings with him commenced, and doubtless it will last as long as he will. The course of the war has shown us that we never knew what to expect from this august histrionic, that is, in the way of double dealing.

Here are two paragraphs from the reply to the Papal note: "In the crisis which led to the world conflagration his majesty's efforts were up to the last moment directed towards settling the conflict by peaceful means"; "The Imperial government greets with special sympathy the leading idea of the peace proposal wherein his holiness clearly presses the conviction that in the future the material power of arms must be superseded by the moral power of the right". Here we have two judgments upon the present conflict, and to both of these the Kaiser was vigorously opposed in 1914. All that he did towards settling the conflict by peaceful means was to shake the mailed fist; all that he said was that necessity (of might) knows no law, and he proceeded with all despatch to strike out

for France, via Belgium, trampling on that ill-fated country on his way.

Is it any wonder then, that President Wilson replied to the Papal note as he did and that the rest of the Allies see in that reply the best possible answer? After all, General Haig's latest drive is the concrete reply to a man whose ambitions led him to think that he could stride the world.

NOTES

The recent issue of the 'Eyeopener' has some caustic things to say about people who go to the moving picture shows and make it miserable for other people by their selfishness. But there is one bore overlooked by the 'Eyeopener' and that is the soulless person who goes to the shows quite unworried by the fact that there are other persons who do not in the least appreciate his asinine noises and remarks at various stages of the performance. This type exists in greater or less quantity in Vulcan, and we feel sure that the audience would receive it as a favour if the management would remind it, through the medium of the screen that if it cannot keep quiet it is better outside.

Ever since threshing commenced there have been spells of rain which have laid the work aside for a few days. These delays are in their way annoying to the farmer who wants to get the year's work done with. And there is always the expense of an idle crew. But the optimistic tiller of the soil is likely to see in these rains the moisture for next year and conclude that if we did not have the rains now they would be sorely missed in 1918. All of which is very true, but it is hard to take the optimistic view when that view is a long one.

If Mrs. McKinney is the first lady to be elected to parliament she is not the only one, for Nurse McAdams has been elected by the Alberta soldiers in the trenches to represent them in the Alberta legislature. One cannot but feel pleased that the soldiers have elected a nurse who has been to the war. In the election itself politics have been cast to the winds, and the only designation which will fit Miss McAdams, and Captain Pearson, the other representative, is that of soldiers representatives.

There is a report current which is to the effect that when the Pope has received the reply of the Allies to his recent peace note he will again address a note on the same subject to all belligerents. In this note it will be pointed out that the questions on which all agree really represent the foundation of a new order of things in the world and a new era of peace for humanity. This report, if true, can be taken and read beside the desire for peace in Austria and the gradually growing desire for peace among the German people themselves. It is not unlikely that the Teutonic allies, through Austria, are using the Vatican for feeling just what the chances of peace among the Allies really amounts to.

As the threshing progresses it is being shown that the yields are turning out to be very much better than was at first anticipated. Save where there has been hail, summer fallow is turning out anything from 25 to 33 bushels to the acre, and stubble is giving from 10 to 16 bushels to the acre. This is decidedly cheering after all one heard about the disastrous effects of a dry summer. The mistake from which we drew our pessimism was in looking forward to a crop comparable with those of last year and the year before. We cannot have crops such as those of 1915 and 1916 all the time; we must expect the average now and again.

The investigation into the enormous bacon profits made by the company with which Sir Joseph Flavell is intimately connected show how necessary it is that the government employ some means whereby the wealth arising out of war profits should be made to do its share in helping the country. No amount of postponement will alleviate the situation, either. People are getting too wise to the flagrant abuse of business principles to allow themselves to be profited in the future for the sake of a few wealthy individuals who preach one thing and practice another.

Some time ago, in fact at the beginning of their regime, the council passed a bylaw setting the hours during which cows of the village should be at large. As to how this bylaw has been ignored by some owners of cows would be a long story. Suffice it to say that some cows are having great times these nights breaking through fences and destroying the efforts of people who have raised gardens. A little thought on the part of those who own the animals would be very welcome indeed.

New Fall Goods

Hundreds of dollars worth new dry goods being put into stock every day.

DELCO-LIGHT

"ELECTRICITY FOR EVERY FARM"

Electric Light For Farm, Village and Suburban Homes

DELCO-LIGHT

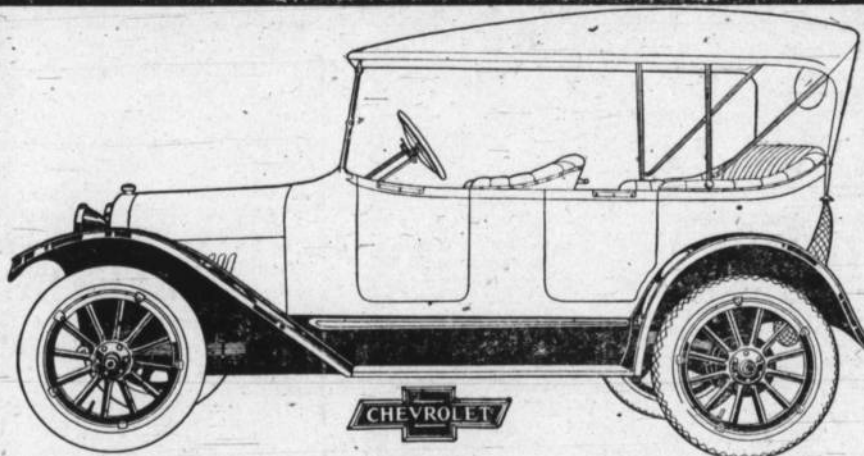

Developed by the same Company that has made Delco Starting, Lighting and Ignition Equipment for Automobiles, the standard of the world.

Delco-Light is a complete electric plant—Gas engine and dynamo for generating the current combined in one compact unit. It will furnish 40 to 50 lights for the house and barn and will light the average home at a cost of about 5 cents a day. It will also provide power for small machines such as churn, cream separator, pump, washing machine, vacuum cleaner, sewing machine, etc.

Delco-Light is so simple that anyone can operate it. Starts itself on the turning of a switch and stops automatically when batteries are full. Shockless and practically trouble proof.

MILLERS HAVE MONOPLY ON GRAIN, SAYS BUYER

That the millers of Western Canada have an absolute monopoly on every bushel of wheat raised in the prairie provinces this year is the statement made to the Lethbridge Herald by a well known grain buyer.

"The millers can buy every bushel of wheat marketed over our heads, if they want to, and they seem to want to for they are taking cars right under our noses with a smile.

And here's the way it is done: The government has said to the grain buyers that they must not pay more than \$2.21 per bushel. But they have said to the miller that they may pay one cent over the maximum price. The result is that a track buyer comes along to buy a car of wheat on track and makes his offer. The mill buyer comes along and offers one cent over and gets the car.

The Herald's informant declared that he had lost many cars this year in that manner, and he

was impotent to help himself. The millers simply have the monopoly.

"Not only have they the monopoly on the handling of the wheat crop, but they also seem to be able to set their own price on flour, thus giving them a monopoly both ways," declared the grain buyer. "An old miller in Winnipeg, who had been in the business for years figured it out for me, and he declared that the millers can make a clear profit of \$1.60 per barrel on flour at the present price they have set for flour \$5.40 wholesale, for the best grades. That means that they are making about 30 cents a bushel on every bushel of wheat they mill. Give them a monopoly on the wheat and you can figure it out for yourself what they will do to the consumers of Western Canada. The government has a long way to go yet in this price fixing program before the people will be satisfied that they are getting a square deal."

CALGARY GRAIN RECEIPTS ARE ALL GRADING UP WELL

Several Cars of No. 1 Wheat Received; Oats Are All Going 2 C. W.

The grain being shipped into Calgary is still grading high, according to the grain dealers in the city. The Independent Grain Co. have just received another twelve cars from Carmangay, Barons and Nobleford. Most of this is grading No. 1 hard and No. 1 northern, with an occasional car of tough grain.

The National Elevator Co. have handled five cars of oats from Blackie, grading No. 3 C.W. They also have about seven cars in bins at their elevator at this point. Two cars, which were shipped from Ensign graded No. 3 C.W.

Strong & Dowle have handled five cars of oats from various points, from Lacombe and south, two cars from Delacour and one from the south country. This grain graded No. 2 C.W.

LUCRATIVE FARMING

An Alberta farmer, living south of Calgary, insured his crop against hail early in the season. He was hailed out and collected 90 per cent. of his policy. The crop started to come up afterwards and he again insured. He was hailed out the second time and collected another 90 per cent. This same crop has been threshed out and brought ten bushels to the acre, which sold for \$2 a bushel on the Calgary market.

NEW WHEAT GRADES WELL

Local elevators are handling the new grain every day now, and are finding it an better average grade than it was last year. Fully two-thirds of it is No. 1 northern, and the balance is No. 2.

Mr. E. J. Charters, of the Alberta Farmers elevator, reports the inspection on the first carload of new wheat, shipped by Mr. E. G. McPherson to the United Grain Growers. The grade is No. 1 hard, and weighs 65 lbs. to the bushel. The Farmers elevator has handled 20,000 bushels of new grain during the past week. The Alberta Pacific Elevator reports good shipments, most of which is of the No. 1 variety.

NATURAL RESOURCES FOR THE PROVINCE

As a result of the food shortage arising out of war conditions three prairie provinces are likely to secure control of a portion of the natural resources. It is altogether probable that, owing to the action of the food controller, the control of certain lakes in Alberta, Saskatchewan and Manitoba will be transferred at his request from the Dominion government to the province. The fish committee is now discussing with the provincial authorities a plan by which the provinces will conduct the fisheries as a public enterprise, including the annual catch, by organizing and equipping fishing fleets for the lakes, distributing the catch by rapid transit and providing for the replenishing of the waters.

The suggestion has been made that the three provinces should work together in handling the fish. Such co-operation is all the more desirable because of the fact that some of the provinces have lakes which are available for winter fishing only, owing to the lack of railway connection, while other prairie lakes connected by rail with the cities and towns could supply the fish in summer.

If the proposed inter-provincial fishing organization is carried throughout as expected, the western provinces will be assured of a permanent and continuous supply of fresh fish at reasonable prices. The province of Ontario has already taken over the fishing of Lake Nepigon and is preparing to market the fish. In connection with this proposed plan consideration of the interest of the United States will be given to this extent: "That the food control hopes to see the volume of production in the prairie provinces increased sufficiently to enable the Americans to obtain their usual supply and to avoid a reduction of our export trade."

An ingenious American has invented a device to prevent such motoring accidents as arise from over-speeding. He describes his contrivance as follows:

"While the car is running fifteen miles an hour a white bulb shows on the radiator, at twenty five miles a green bulb appears, at forty a red bulb, and, when the driver begins to bat 'em out around sixty per, a music-box under the seat begins to play 'Nearer, My God, to Thee.'"

The city of London, England, is preparing to receive more German air raids, which, it is expected, will develop with the coming harvest moon.

WORLD'S GRAIN REPORT SHOWS GREAT INCREASE

Latest Reports Very Favorable; Wheat Increases 3.3 Per Cent

The world's wheat crop this year for the principal countries which have reported, including the United States, is 1,665,489,000 bushels, an increase of 3.3 per cent over 1916, according to reports from the Institute of Agriculture at Rome, made public today. The world's barley crop is 464,289,000, an increase of 2.4 per cent; the rye crop 89,950,000 bushels, increase of 10.7 per cent. the oats crop 1,995,504,000 bushels, an increase of 25.3 per cent.

The total production of wheat in Spain, France, Scotland, Ireland, Switzerland, Canada and the United States, India, Japan and Algeria is given as 1,665,488,000 bushels, or 103 per cent of last year's production in the same countries, and 87 per cent of their five-year average.

The production of rye in Spain, Ireland, Switzerland, Canada and the United States is 89,950,000 bushels, 111 per cent of 1916 and 157 per cent of five year average.

The production of barley in the same countries as for rye, plus Scotland, Japan and Algeria, is 464,289,000 bushels, 102 per cent of the five year average.

DAMAGE LESS THAN WAS FEARED

An official statement issued by the British Food Production department states that while the recent storms in England have added seriously to the difficulties the farmer has had to face since the harvest started, the actual damage done was less than feared.

Damage was caused chiefly by the shaking out of overripe grain of which there was much in the country at the time, and in some instances it is stated that from six to eight bushels per acre have been lost. Injury was also caused by the straw twisting so that in many cases harvesting by the self binder will be impossible.

Potato disease was reported to be spreading in the south of the country and prospects for a full crop are unfavourable.

FUEL CONTROLLER DISCUSSES COAL SITUATION HERE

C. A. Magrath Warns Dealers Not to Increase Prices Without Consent

That there no immediate possibility of coal prices in Alberta being fixed is the intimation of C. A. Magrath, Dominion fuel controller, who is in Calgary on his return from the coast. Mr. Magrath declined to go into the price question very deeply, but stated that he was in Alberta to see how people were being supplied, and to make clear to the dealers that as fuel controller he must follow the question of prices to consumers very closely, and to also point out to them that prices must not be advanced without his consent. So at least there is no prospect of an increase in coal prices.

"It is not my intention", said Mr. Magrath, "to trespass on the field already covered by Mr. Armstrong, who is the Dominion commissioner in charge of operations in District 18. Naturally I am interested in what the consumer is paying for his coal, and will continue to watch prices very closely."

Mr. Magrath has asked Premier Sifton to appoint someone to co-operate with his office in looking after the coal situation here, as other provinces have done.—Calgary Herald.

FRUIT DEALERS MUST REGISTER

Word from Ottawa is to the effect that an order is in preparation requiring all wholesale dealers in fruits and vegetables throughout the Dominion to register with the food controller. There is also in preparation a further order which requires that a statement of all purchases of apples from the fruitgrowing districts shall be filed with the food controller. The order covers contracts entered into for the 1917 crop.

In order to prevent inflation of prices, the food controller announces that a check is to be put on the prices of potatoes. This is being done as it is known that speculators, with an eye to war profits, are getting in shape to control the markets.

PROGRESSIVE WITH RURAL HOSPITALS

Good progress is being made by the provincial government with the enforcement of the Rural Hospitals act. The government has divided the province into fifty districts, arranged for the boundaries and given such encouragement as possible to the districts for the organization.

Already eight of the districts have taken steps to take advantage of the legislation. That means sixteen per cent. of the entire province, which is regarded as very satisfactory, as the act has been in operation little more than six months.

Of the eight districts taking advantage of the act, Innisfail seems more advanced than the others and will probably have the first municipal hospital under the new act.

Many other districts are waiting to see a model before taking definite action.

The government, in addition to mapping out the district, gives all possible information respecting the working of the act, and provides plans for the hospital. Altogether the hospital act is working very well.

COW IS A MONEY MAKER

The most recent of Holstein cows in Western Canada to have qualified in the Canadian record of performance test is the aged cow, Belldina Abbecker, owned by W. C. White, of Carmangay, Alta, producing 15, 946 pounds of milk and 651 pounds of butter.

If a man had a few cows like the one mentioned in this item he would have a nice income each year. Putting the price of butter at 35 cents a pound for the year, which we consider is a little below the average this cow earned for her owner \$227.85. When you add to this a calf worth over \$100 you will readily see that it pays to keep good cows.—Carmangay Sun.

HELP WANTED UNDER CONSCRIPTION ACT

J. W. Mitchell, secretary of the Great War Veterans' association is desirous of obtaining the names of all widows and dependents of soldiers fallen at the front who are qualified for positions as stenographers and general office help. This is in connection with the military service act. Applicants residing in Alberta should state their qualifications in writing and address their communication to Secretary Mitchell, at the Great War Veterans' club, Seventh avenue east, Calgary.

STORING VEGETABLES FOR THE WINTER

"There has been no time in history of the country when the conservation of the vegetable crop was more necessary than at the present," said Superintendent Reader, of the Calgary Parks, recently, "although cheap at present they may not continue to be so."

The speaker recommended the use of a frost-proof cellar as the best for storage, the vegetables not being placed near any outside wall. Windows in it should be darkened, but at least one used for ventilation. A strict watch should be kept for mice and all vegetables should be overhauled occasionally to find signs of decay. All should be stored early in October. While bins do well for the majority of vegetables, cabbages should be tied in bundles and hung from the ceiling.

At a price of \$2.21 per bushel for wheat, Dan Dicks, a Toulon, Man. farmer, will realize \$128.18 per acre for his summer fallow this year, or a return of \$4,486.30 from the field, which contains 35 acres. His wheat went 58 bushels per acre.

HUSBANDS WANTED IN GERMANY

The matrimonial situation in Germany is becoming very serious, according to reports that sift through neutral countries. Available men for husbands are becoming so scarce that women are offering special inducements to attract possible sweethearts. Advertisements of this character are numerous in the newspapers and matrimonial agencies that promise to supply husbands are doing a flourishing business. Invalid soldiers are in particular demand.

One of the characteristic advertisements is taken from the Breslau Volkswacht.

"I am 22, not bad-looking. I have 14 fowls at my farm, one pony, six pigs, four cows, two hams and some sausages now in process of curing, a blind mother who knows how to weave and spin, a small vineyard, 25 celery trees, a quantity of homespun house linen, and three casks of good wine in my cellar. I have, besides, a piano and a flute.

"Injured soldiers who are able to work in the field or attend to the cattle and poultry are invited to send in their application if they feel inclined to marry.

"No objection to separation if, after six months of married life, incompatibility of character should manifest itself on either side."

ADVICE REGARDING TREES

The address on the growing and cultivation of trees in the west which was given by Mr. A. Mitchell, of the Mitchell Nurseries, Coadale, contained many points of interest which will doubtless be of value to those who are trying to beautify the prairie in this neighbourhood. The following hints are taken from his address and should prove useful.

Manitoba maple not standard trees but good for interspersing amongst others on account of the benefit the others derive therefrom. Poplars and Cottonwoods most popular if of northern extraction, Carolina poplars, of which too many are here, will die. The Russian poplar, Petriorskiana, absolutely hardy.

Pinch back the buds in July to get benefit later. Do not water after June. After leaves are off soak the ground around the trees.

Willows. Sharp and Laurel leaf best. Golden Melon not advised.

Elm and Ash, slow but sure growth. Elm not recommended for general planting on account of crooked growth.

White spruce 9 ins. to 24 ins, will grow. Lilaes recommended. The Hungarian, though no scent hardiest. Charles Xth the best.

Honeysuckle, northern variety, recommended. Plant sheltered from north and west winds. Carrigana hardiest hedge. Cut down to nursery to 9 ins and trim three times a year.

Do not try apples, if wanted, try crabapples and hyslop. Roses not budded will grow.

Help the tree to face the west by pruning the heavy branches on the east side. Do not prune a growing tree too rapidly, it will get top heavy. Take the lower branches, a few once a year. Prune in June.

Never plant a tree or shrub with manure. If required, cover roots in the fall with black manure.

When planting trees press the earth firmly down with the heel not the toes.

Virginia creeper should be planted where possible. Let it run on trellis or wire netting. Lay it on the ground for the first winter and cover it with mulch. The second winter it will have enough wood to protect itself. Every farmer ought to be his own nurseryman. If he only commenced with a quarter of an acre, he would soon have sufficient clippings to plant round his entire farm.

Everything for Men

of good taste, in the way of furnishings. Cravets that match shirt or socks, shirts that go well with the suit, and collars that fit both the neck and neck band. Come in and see how quickly and pleasantly we can fit you out.

GET AFTER SLACKERS

Negotiations are under way, it
is understood, between the gov-
ernments of Canada and the United
States to meet the case of
men avoiding compulsory mili-
tary service by residing on the
other side of the line. The allied
nations in Europe recently ad-
opted a common plan of action
in this regard, and it is now pro-
posed that Canada and the United
States should take a similar
course. Americans of military
age in Canada or Canadians in
the United States would thus be
unable to escape military service
by residing in a friendly country.
The majority of Americans of
military age in Canada, it is un-
derstood, have already reported
to their consulates for military
duty. Co-operation between the
countries is designed to meet the
case of the few on either side of
the line who may attempt to take
advantage of their residence.

BRANT NEWS.

Jos. Miles has arranged for the
building of a fine residence on his
farm near town.

Mr. Johns of Orillia, Ont., is
at present visiting with his son,
Mr. Thomas Johns.

Mr. D. Frizelle and family
moved into their new and com-
modious residence on Tuesday. It
is a credit to the owner.

Threshing is now general in
the northern parts of Alberta,
according to a representative of
the United Grain Growers who
has been making a trip north and
east of Edmonton. Crops are
reported to be very heavy in
most districts, and at Innisfree
some 40-bushel wheat crops are
being threshed. Crops are also
heavy at Fort Saskatchewan and
Bon Accord. All grains are in
good condition, and the weather
has been exceptionally favour-
able.

Synopsis of Canadian North- west Land Regulations

THE sole head of a family, or any
male over 18 years old, who was at the
commencement of the present war, and
has since continued to be, a British sub-
ject or a subject of an allied or neutral
country, may homestead a quarter-section
of available Dominion Land in Mani-
toba, Saskatchewan or Alberta. Ap-
plicant must appear in person at Dominion
Lands Agency or Sub-Agency for Dis-
trict. Entry by proxy may be made on
certain conditions. Duties—Six months
residence upon and cultivation of land in
each of three years.

In certain districts a homesteader may
secure an adjoining quarter-section as
pre-emption. Price \$3.00 per acre.
Duties—Reside six months in each of
three years after earning homestead pa-
tent and cultivate 50 acres extra. May
obtain pre-emption patent as soon as
homestead patent on certain conditions.
A settler after obtaining homestead
patent, if he cannot secure a pre-emption,
may take a purchased homestead in cer-
tain districts. Price \$3.00 per acre. Must
reside six months in each of three years,
cultivate 50 acres and erect a house worth
\$300.00.

Holders of entries may count time of
employment as farm labourers in Canada
during 1917, as residence duties under
certain conditions.

When Dominion Lands are advertised
or posted for entry, returned soldiers who
have served overseas and have been hon-
ourably discharged, receive one day pri-
ority in applying for entry at local Agents
Office (1st of Sub-Agency). Discharge
papers must be presented to Agent.

W. W. CORY, C.M.G.,
Deputy of the Minister of the Interior
N.B.—Unauthorized publication of
this advertisement will not be paid for
